Forecast for Sunday 18 Apr 2021

Weather: A touch of grass frost and some short lived shallow fog patches in the valleys around dawn. Then staying dry throughout the day, with areas of high cloud making sunshine hazy at times, and with some fair weather cloud developing late morning onwards. Cloud is expected to remain clear of the summits and it should feel warm in the sunshine. Remaining dry with clear spells through the evening.

Chance of cloud free mountain/hill tops above 800m: 100% with cloud staying clear of the summits.

Visibility: Some locally poor visibilities are possible first thing in any shallow valley fog, but otherwise visibility will be excellent with distant hills and landmarks visible.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Even with light winds it will feel cold on high level routes. However, despite the chilly feel, the spells of strong sunshine will give moderate UV levels and therefore sun protection is advised.

Forecast for Monday 19 Apr 2021

Weather: Dry with clear periods during the early hours of Monday morning with the risk of some shallow valley fog forming for a time around dawn. The rest of the day will be dry with sunny spells. Some fair weather cloud will build from late morning onwards, but should remain clear of the summits. Remaining dry with clear spells through the evening.

Maximum wind: Southerly 15mph.

Chance of cloud free mountain/hill tops above 800m: 100%.

Visibility: Some locally poor visibilities are possible first thing in any shallow valley fog, but otherwise visibility will be excellent with distant hills and landmarks visible.

Temperature: **Valleys:** Plus 2 Celsius becoming plus 13 Celsius.
At 800m: Plus 2 Celsius.
Freezing level: Above the summits.
